CONTENTS

YEAR IN REVIEW
PESA Australian exploration review 2019
I. Cockerill

PESA Australian business environment review 2019
S. Molyneux

PESA year in review 2019 – development and production
M. Quinn

BUSINESS – EXTENDED ABSTRACTS
Shaping the future workforce for the oil and gas sector
J. Andrews, L. Rolland and T. Cotton

A hydrogen future?
J. Arnott and N. Leibbrandt

Hydrogen innovation: discover development hotspots with patent landscaping
R. H. Baddeley

Realising the value from next generation integrated operating centres (IOC)
J.-C. Bernardini, M. Lyons, C. Stewart and W. Merchant

The impact of fly-in, fly-out (FIFO) on the health and well-being of employees: what organisations can do to mitigate the risks and improve outcomes
E. Brook, M. Freeman and G. Ditchburn

Data driven update to industry Life-Saving Rules
M. Carvalho, K. Walker, O. Adeogun, M. Mark and O. Skår

Putting safety leadership thinking into practice
M. Carvalho, S. Robinson and M. Anderson

A unique approach to community engagement: a GasFields Queensland Commission perspective
C. Cassidy

IOGP Global Production Report 2019 and Production Indicator©
A. Checchi

Advancing technology in oil and gas: collaboration and comparison with the space sector
J. Crusan

Redefining the relationship between the oil company and its vendor
C. E. Davies, T. Allen, C. E. Dempsey and K. Mishra

Turning the tide: the transformation of the North Sea
A. Del Maestro and C. Stevens

The case for shared infrastructure to unlock onshore resources
K. C. Eberspaecher

King Reef: an Australian first in repurposing oil and gas infrastructure to benefit regional communities

Adjusting to working away and as an expatriate: learnings on what organisations can do to promote the mental health and well-being of workers and their families
M. L. Freeman

</table>
Serious Injury and Fatality Prevention (SIFP): a structured program designed to prevent serious injuries and fatalities in the workplace
G. Robinson 523–526

From global upstream safety data to action
O. Skår, M. Carvalho, W. Poore and K. Walker 527–531

Mapping traditional ecological knowledge of Sea Country to understand biodiversity and areas of cultural importance
C. Streten, H. Davies, R. Galaiduk, T. L. Yuen and P. Sheldon 532–536

Shaping the decommissioning landscape of tomorrow
A. Taylor 537–539

The digital worker: how technology is enhancing safety and productivity in the field
K. Taylor and T. Walker 540–543

Protecting past, present and progress: the reality of coexistence with National and World Heritage properties
D. Thomas 544–547

The scalability challenge: pathways to future decarbonisation and the impact on the oil and gas industry
G. Thompson 548–550

Making upstream infrastructure collaboration happen
F. Tibi, W. Lanagan and W. Merchant 551–554

Can Australian LNG continue to be competitive?
D. Toleman 555–558

Strategies for obtaining ecological data to enhance decommissioning assessments
S. van Elden, T. Tothill and J. J. Meeuwig 559–562

Santos Energy Solutions: targeting a lower-carbon future and underpinning our sustainability
F. Wademan 563–565

Chevron’s journey in keeping diversity and inclusion on the agenda
C. Watts and E. Shaw 566–568

Lowering the cost of funds for exploration: the case for tax-based equity financing incentives
K. Wee 569–572

Decommissioning and rehabilitation: what’s tax got to do with it?
K. Wee 573–576

Improving industry safety via real collaboration: a case study from the Qld CSG sector
M. L. Zaunbrecher and S. O’Donnell 577–582

ENGINEERING – EXTENDED ABSTRACTS
Technology road map for the low-carbon production of hydrocarbons
C. Anderson 583–587

Earthquake risk management for oil and gas infrastructure in the north west of Australia
M. Banimahd, S. Tyler, M. Kuo and F. Chow 588–594

SURFIM Network: the value of sharing lessons learned on the industry’s longest running joint industry project regarding SURF facilities integrity management
A. Botto 595–597

Collaboration solves long standing corrosion problem
M. Brameld, S. Thomas and G. S. Malab 598–601

Use of machine learning on SCADA data for asset’s prognostics health management
A. Cesa and E. Press 602–605
The application of dynamic modelling technique on the pipeline drying operation during pre-commissioning  
D. Chen, A. Duff and J. Willcocks  
606–610

The next generation of risk-based inspection for coal seam gas wells  
S. Collins and J. Everson  
611–615

Process safety – learning the hard way  
S. Cooper and C. Meakins  
616–619

Development of a highly automated mobile rig for the Australian CSG market  
A. de Mul  
620–623

Software for quantitative prediction of hydrate blockage formation in gas condensate systems  
P. Dhoorjaty, D. Erickson and D. Penmetsa  
624–627

A new generation of catalyst deactivation, removal and loading technology in the liquefied natural gas industry  
M. L. Draca and S. Tysztia  
628–632

A regulator’s perspective: well integrity considerations in decommissioning  
C. Hick, D. O’Keeffe and M. Bourne  
633–636

Cost reductions through converting platforms from permanently manned to manned-evacuated  
M. Keys  
637–640

An application and subsequent benefits of digitalisation to pipeline engineering using a 3D pipe-in-pipe bulkhead design project case study  
N. Lim and L. Lim  
641–645

Hydrate risk management at end of field life: opportunities to maximise recovery  
S. A. Morrissy, A. J. Mortimer and P. Nielsen  
646–649

Real-time integrity monitoring for oil and gas assets  
M. A. Putrino  
650–653

Importance of ambient cure for high-temperature coatings  
G. Ross  
654–657

Conformance control for production optimisation using polymer nanocomposite hydrogels  
R. M. Rudd, A. Saeedi and C. D. Wood  
658–661

Improving CO$_2$ storage and oil recovery by injecting alcohol-treated CO$_2$  
Saira and F. Le-Hussain  
662–667

The effect of gravity on the shape and direction of vertical hydraulic fractures  
S. Salimzadeh  
668–671

Changes in multi-phase flow properties of carbonate porous media during CO$_2$ injection  
M. Seyyedi, A. Giwelli, C. White, L. Esteban, M. Verrall and B. Clennell  
672–676

Progressive cavity pump tubing drain valves: operator-savings illustration  
P. M. Smith  
677–680

Using machine learning to enhance operator performance  
D. Walker  
681–684

**GEOSCIENCE – EXTENDED ABSTRACTS**

The Paleozoic prospectivity of the Browse Basin, Australia  
S. Amiribesheli, J. Thorp and J. Davies  
685–690

New insights into the stratigraphy of the Otway Basin  
B. Bendall, A. Forbes, D. Revie, R. Eid, S. Herley and T. Hill  
691–696

Thermal maturity and reservoir quality of the Velkerri Formation, Beetaloo Sub-basin, Northern Territory  
C. Delle Piane, I. T. Uysal, M. Faiz, Z. Pan, J. Bourdet, Z. Li, M. D. Raven and D. N. Dewhurst  
697–702
Exploring for the Future—a new oil and gas frontier in northern Australia

New insights into the organic geochemistry of the Otway Basin
T. Hill, B. Bendall and A. Murray 712–717

CarbonNet progress towards a declaration of identified storage formation at the Pelican site with a new high-resolution 3D seismic dataset
N. Hoffman 718–721

A geochemical investigation into the resource potential of the Lawn Hill Platform, northern Australia

The CSIRO In-Situ Laboratory in South Western Australia: a field laboratory for de-risking carbon storage
K. Michael, L. Ricard, L. Stalker, A. Hortle and A. Avijegon 732–735

Unlocking material gas resources – Moomba South case study
H. Moriarty, J. Clifford, J. Donley and L. Maxwell 736–741

The prospectivity of the Late Triassic intervals in the outboard Exmouth Plateau, Western Australia
T. Paten 742–747

Characterisation of Surat Basin Walloon interburden and overlying Springbok Sandstone: a focus on methane adsorption isotherms, permeability and gas content
S. S. Raza, J. Pearce, P. Shukla, P. Hayes and V. Rudolph 748–752

Comprehensive basin-wide 3D petroleum systems modelling providing new insights into proven petroleum systems and remaining prospectivity in the Exmouth Sub-basin, Australia

Is there any room for gravity in petroleum exploration? Let’s open the door again!
S. Shevchenko 761–764

Evaluation of the Petrel Sub-basin as a northern Australia CO₂ store: future decarbonisation hub?
L. Stalker, D. Dewhurst, Y. Zhang, P. Schaubs, B. Clennell, Y. Suhardiman, A. Maxwell, F. Masserano, F. Boccuni, C. Toscano and D. Castano 765–772

Improving exploration efficiency in frontier basin using CSEM
R. Tharimela 773–777

Dorado discovery – unlocking a major new oil and gas play in the Bedout Sub-basin
M. Thompson 778–783

Implementation of seismic data quality characterisation using supervised deep learning
J. Thorp, K. Davies, J. Bluteau and P. Hoiles 784–788

The Lesueur Formation storage complex in South Western Australia: safe, secure long-term storage of CO₂

Re-evaluation of depositional models for the lower Permian Patchawarra Formation, Cooper Basin, South Australia: implications for petroleum exploration
C. Wainman and P. McCabe 794–796
